Ilaria Torre

Ilaria Torre is a Postdoctoral Researcher at KTH Royal Institute of Technology and a part of the division of Robotics, Perception and Learning, as well as the WASP Expedition Project on Correct-by-design and Socially Acceptable Autonomy (CorSA). She studies how different characteristics of an artificial agent (e.g. voice, emotional expression, human-likeness, behaviour) affect human behaviour, specifically in terms of trust. She obtained a Ph.D. from the University of Plymouth, in 2017, where she investigated vocal predictors of behavioural trust in Human-Agent Interaction.
